Holland, Mich., Aug. 1.—“There is not a better sailor on the lakes than the captain of the Reliance,” said Lieutenant Ballinger of Chicago at Macatawa Park the other day. Mr. Ballinger is government inspector of the life saving stations in this district and his remark was made while in conversation with Captain Morton of Grand Haven, superintendent of life saving stations in the district, who echoed the statement. The captain of the Reliance is a woman, and it was to this everyday modest, womanly woman, whose home is on the bounding waters, that these men, whose positions gave them the ability to judge, paid so high a tribute.

Mrs. Joseph Haas is no novice in the work, for almost her entire life has been spent on the waters. Her father, Captain Rannow of South Manitou Island, sailed the lakes all his life. As a girl Mrs. Haas sailed much with him and many were the rough seas which they encountered in his sailing vessel. For eight years Mr. and Mrs. Haas ran a sailboat—with Mrs. Haas at the helm—between South Manitou Island and the mainland, and for four years a gasoline launch, during which time they carried the mail between Glen Haven and South Manitou Island. Mrs. Haas has made the trip to Green Bay thirteen times, four trips in a sailboat and nine in a launch. She plans on leaving September 1 for Green Bay in the Reliance, which is fitted up with all home comforts. Her husband and son will accompany her. There they will be joined by her daughter, whose husband is light-house keeper at the entrance of Fox river in Green Bay. They will take a cruise to New Orleans and spend the winter there.
